

Managing partners

The ASL BiSL Foundation aims to improve professional skills in the field of application management and business information systems management, by maintaining and publishing public domain libraries ASL & BiSL. Managing partners of the foundation are member of the board, are responsible for product groups and are member of review boards for new releases of the process frameworks. They are actively involved in sharing knowledge through knowledge groups, formed each year on popular subjects.

Managing partners of the ASL BiSL Foundation in the Netherlands are:
